Artwork - terminology

Limited Edition Print (LE)

An edition of identical prints, numbered sequentially and individually signed by the artist, having a stated limit to the quantity in the edition. Following publication the printing plates are destroyed.

Artists Proof (AP)

Proofs are signed by the artist and numbered showing the quantity of Artist's Proofs issued in the edition. Because of their highly restricted number, Artist's Proofs are sold at a higher value than the regular prints in the edition.

Publisher's Proof (PP)

A quantity of prints, not always announced or issued at the time of publication, usually equal to no more than 10% of the edition. These are reserved for the publisher's use, mostly for donation to museums, service establishments, service associations, and the like.

Remarqued Print (RP)

A print issued with an original pencil drawing by the artist in the margin, each numbered out of the quantity of individually remarqued prints in the edition. The quantity of remarqued prints in any one edition generally is limited to between 10 and 50. Each remarque drawing made by the artist is slightly different, thus making each print totally unique. Remarqued prints may be available at the time of publication, or announced at a later date, depending upon the artist's workload at the time. An artist remarqued print is the ultimate collector item in terms of reproduced work.

*All prints, unless noted by **No Cert.**, are issued with the original certificate by the publisher. This certificate states the total quantity of prints issued in the edition, confirming authenticity of the signatures and in the case of a limited edition, is inscribed with the matching unique number imprinted on the individual print. Keep certificates in a safe place to preserve provenance.*
